### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process as claimed in which diolefins and acetylenic compounds in a gasoline feed are selectively hydrogenated, the effluent therefrom is separated into at least three fractions, and at least one of the fractions is treated to remove sulfur from the fraction. The references of record provide no motivation to one of ordinary skill in the art to combine a selective hydrogenation with further fractionation and sulfur removal treatment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*
